5.2. Explanation contents:

5.2.1 Profit after tax in the period on the separate and consolidated financial statements was a loss due to:

- During the period, the parent company suffered a loss due to having to fully depreciate fixed assets that are currently suspended from production, including buildings, machinery and equipment of the 120-ton/day rolled glass line and the 80-ton/day rolled glass line.
- The subsidiary, Viglacera Glass Installation Co., Ltd.,, suffered a loss in after-tax profit during the period due to the impact of the declining consumer market, so it has not yet fully utilized the capacity of the energy-saving glass processing factory, and its revenue is low and does not meet the plan.

5.2.2 The after-tax profit target for the period in the separate and consolidated financial statements changes by more than 10% compared to the same period in 2025, due to the following main reasons:

For the period in 2026, the subsidiary, Viglacera Glass Installation Co., Ltd., reduced its losses compared to the same period in 2025 because the company implemented cost-cutting measures and utilized the lease of unused factory space to increase revenue and profit.

The provision expense for investments in subsidiaries incurred by the parent company during the period decreased compared to the same period in 2025. Therefore, the loss for the period in 2026 decreased compared to the same period in 2025.
